## An official statement regarding COVID-19

Dear clients, potential bookers, fans, website visitors, and friends

COVID-19 concerns are globally growing, causing massive travel bans and strict measures taken by the governments. Following the instructions from WHO (World Health Organization), general tips from the sex-work orientated associations, I have decided to take additional steps to protect me and my clients. These steps are adjusted to the current situation regarding COVID-19. I have decided accordingly to make temporary changes in my service terms that are effective immediately, as of following.

### Following actions and measures are effective:

- Ban all client trips to outside Germany, including trips with the client.
- Suspending service for the clients arrived within 14-days or arriving from the following countries: Mainland China, South Korea, Italy, Iran, Japan, Singapore, and Hong Kong.
- Establish additional booking discount for the returning clients as of following: Gold clients -30%, Silver clients -20%, Frequent clients -10%, Regular clients 0% if total booking discount (including other possible discounts) does not increase half of the total booking price (50%).
- Require my clients to wash hands at least 20 seconds with the warm water before requesting body contact.
- Require my clients to wash mouth with the hygienical mouthwash before requesting services related to kissing
- Avoid going to the places that are taking place with more than 100 attendances
- Withdraw immediately providing services for the clients who are experiencing the following symptoms: cough.

These actions and measures are initially valid until May 1, 2020. Keeping in the track of the latest updates on my website [yourtwinklover.de](http://yourtwinklover.de) is the best way to find the current information and availability of my services.

As of today, my health is in good condition. I keep monitoring the currently available information about COVID-19 and do whatever I can to keep myself safe. The way how I do this is to void any public events, private trips, and avoid meeting the clients with the illness-like symptoms. In short, I do the best as possible, reducing any risks.

I have gathered all the available information from the trusted websites on how to protect and reduce the risks for health (particularly risks posed to sex workers). As of that fact, I ask strictly to follow any guidelines provided by me during the reservation. Thank you for your cooperation and understanding.
