

My hygiene concept for erotic services related to Covid19 prevention

- **In my house is valid 2G rule:** All clients must present that they are either fully vaccinated or recovered from Covid19.
- **A vaccination or recovering certificate must be demonstrated upon arrival.**
- **Clients who are ill, have flu-like symptoms, or are tested positive against Covid19 should not book me.**
- **Clients who have arrived from high-risk countries or areas or clients who have been contracted with a positive corona person within the last 14 days should not book me.**
- **All clients are required to wash and disinfect their hands upon arrival properly.**
- **I provide for each incall short appointment, which lasts less than one night, one-time disposable bed lines, face masks (if necessary), and a possibility to disinfect your hands.**
- **All rooms are properly ventilated at least 10 minutes before and after each appointment.**
- **Clients have the right to shower before and after the erotical service without paying for this extra time. All towels are washed properly with 40 C water after they are used.**
- **Sexual intercourse takes place exclusively with a condom, as prescribed by ProstSchG.**
- **Any Non-contact-free Welcome rituals (hugs, shaking hands) should be avoided.**
- **In the event of being contracted to the corona positive, I will notify immediately the client(s) who have had bookings within the last 14-days. Due to the local rules, I must report and pass the client data to the local authorities to trace infection chains.**
- **After each client, I carefully clean all commonly used surfaces such as tables, toilets, and door links. I also use disposable sheets for intimated services. Each time client has overnight; the fresh and clean sheets are provided if the overnight is INCALL. Every two weeks, I perform more in-depth disinfection, including full apartment disinfection. If necessary, complete cleaning will be done weekly.**
